Pre Processing Facilities

What We Do

Pre Processing Facilities

At **KUNDAN ENVIRO INDUSTRIES**, we specialise in the safe, scientific, and sustainable management of chemical and industrial waste. Our mission is to protect the environment while helping industries meet their regulatory and sustainability goals.

We Focus On

Environmental safety, regulatory compliance, and operational excellence.

HAZARDOUS WASTE

Effluent Treatment Plant | Tannery ETP Sludge | Toluene Di Isocyanate (TDI) | Process Waste | Spent Catalyst / Carbon | Distillation Residue | Organic Residue | Liquid Organic Residue | Chemical Sludge From ETP | Benzofuran | Waste Lubricant Oil

SLUDGE

Chemical Sludge | Paint Sludge | Process Sludge | Insulation Waste | Phosphate Sludge | Mixed Salt | ATFD Salt | FRP/Resin Waste | Spent Solvent | Others

GENERAL

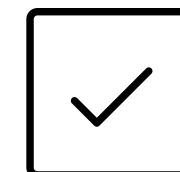

Agriculture Waste | Tyre Chips | Plastic Waste | Biomass | Municipal Waste | Refused Fuel | Wood Chips | FMCG Expired Products | Others

Our Service

Environmental Benefits

We offer a comprehensive range of services tailored to manage, our solutions are designed to meet the highest standards of safety, compliance, and sustainability.

We Provide End-To-End Solutions For Chemical And Hazardous Waste Management, Including Collection, Pre-Processing, Treatment, And Secure Disposal. Our Expertise Covers ETP/STP Systems, Waste-To-Energy Solutions, Recycling, And Environmental Compliance Support. With A Focus On Safety And Sustainability, We Help Industries Manage Waste Responsibly And Meet Regulatory Standards.

We are authorised pre-processors by rajasthan pollution control board, and having capacity to preprocess 60000 MT of industrial waste per month.

We have following main streams of the finished product for the co-processing.

We have a well-developed and well quipped facility to handle vast ranges of the industrial waste.

Waste mix solid (HCV)
Waste mix liquid (HCV)
Waste mix liquid (LCV)

We have our well equipped lab for the purpose of the quality assurance.

We analyse various quality parameters for the finished product as

We believes in providing quality of services and products to our customers.

We understand importance of the plant and environment safety in an industry.

We conducts the training on various safety topic in every interval of the time.

We have well-trained staff to handle various kind of emergency

Our facility have sufficient safety equipment continuous gas system for the and monitoring safer operations.

/*Our authorised transport vehicles pick up your waste and bring it for disposal at our self-owned pre-processing.
